Portfolio: munnashaheemp.me

PROFESSIONAL SUMMARY

Computer Science Engineering student with strong foundations in Java, Python, Data Structures, Algorithms, Object-Oriented Programming, and Software Engineering principles. Experienced in developing full-stack and mobile applications using Flutter, Firebase, REST APIs, and cloud technologies. Passionate about solving complex problems, building scalable software systems, and continuously learning modern technologies. Demonstrated ability to work collaboratively through internships, academic projects, and self-driven development initiatives.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++, Dart, JavaScript, SQL

Computer Science Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Software Engineering, Problem Solving

Development Technologies: Flutter, Firebase, REST APIs, React, HTML5, CSS3

Tools & Platforms: Git, GitHub, Firebase Authentication, Cloud Firestore, VS Code, Android Studio

Cloud & Databases: Cloud Computing Fundamentals, Firebase, SQL

Additional Skills: Debugging, Version Control, Responsive Application Development, Team Collaboration

EDUCATION

B.E. Computer Science and Engineering | 2023–2027 (Pursuing)

Sri Shanmugha College of Engineering and Technology, Salem, Tamil Nadu

Secondary Education | 2021 - 2023

Abdurahiman Nagar Higher Secondary School Chendappuraya, Malappuram, Kerala

RELEVANT COURSEWORK

- Data Structures & Algorithms
- Object-Oriented Programming
- Database Management Systems
- Software Engineering
- Operating Systems
- Design Thinking
- Computer Networks
- Cloud Computing
- Machine Learning Basics

EXPERIENCE

App Development Intern | APM Alpha Pixel Media, Salem

Jan 2026 – Mar 2026

- Developed mobile application features using Flutter and Dart.
- Integrated REST APIs and optimized application performance.
- Identified and resolved bugs through testing and debugging.
- Collaborated using Git and agile development practices.

Project Intern – Design & Multimedia | IN22 Labs, Chennai

Jan 2025 – Feb 2025

- Assisted in UI design and user experience improvement activities.
- Collaborated with development teams in a professional project environment.

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL – Cloud Computing Certification
- HackerRank – Java Programming Certification
- HackerRank – Python (Basic) Certification
- HackerRank – JavaScript (Basic) Certification
- HackerRank – CSS (Basic) Skill Certification
- Udemy – Flutter & Dart: The Complete Guide (2024 Edition)

PROJECTS

Integrated Emergency Response System for Blood Donation & Pharmacy Availability

Flutter, Firebase, Node.js

github.com/munnashaheem96/rapid-aid-blood

- Developed a real-time platform connecting users with nearby blood donors and pharmacies.
- Implemented authentication, cloud database management, and real-time synchronization using Firebase.
- Built location-based search functionality and optimized application performance.
- Applied modular architecture and object-oriented design principles.

College Outpass Management System

Flutter, Firebase

github.com/munnashaheem96/sscet-outpass-app

- Developed a role-based outpass management system with multi-level approval workflows.
- Integrated Firebase Authentication and Cloud Firestore for secure user management.
- Implemented QR code-based verification and real-time status tracking.
- Improved administrative efficiency through automated request processing.

LANGUAGES

- English (Fluent)
- Malayalam (Native)
- Tamil (Conversational)
- Hindi & Arabic (Reading/Writing)
